Inspection report CT-IR-000311

INSPECTION REPORT Rev A · 2026-10-24

Header

Part number	CT-CHA-C-200150-1007
Description	ChArUco calibration target, ceramic
Serial number	000311
Lot	—
Datasheet	CT-DS-CHA-C
Inspection date	2026-10-24
Inspector	JG
Location	Calib.Tools, Munich, Germany
Result	PENDING

1. Method

Dimensional inspection of pattern features by optical CMM / calibrated camera + reference scale / glass scale comparator. Ambient 20 +/- 1 C. Measurement uncertainty (k = 2) stated per measurement.

2. Pattern geometry

Feature	Nominal	Measured	Deviation	Tolerance	Result
—	—	—	—	—	PENDING

3. Flatness

Quantity	Measured	Tolerance	Result
Flatness (peak-to-valley)	—	—	PENDING

4. Visual

Check	Result
Print defects (voids, pinholes > 0.2 mm, scratches in pattern area)	—
Edge and corner condition	—
Edge strip legible, serial matches	—

5. Statement

The item identified above meets the specifications of datasheet CT-DS-CHA-C at the time of inspection. This report is an inspection report issued by Calib.Tools; it is not an accredited calibration certificate. An ILAC-MRA certificate issued by an accredited third-party laboratory is available as SVC-X-CERT-ILAC.
